

FEBRUARY AAUP-UTICA MEMBERSHIP SURVEY ANALYSIS SUMMARY

1) Survey Respondents

Currently, 141/159 bargaining unit members are dues payers, giving us an **89% membership rate**, and of that membership, **73% completed the survey**, which shows good engagement.

Member Group	Participation Rate
Total Respondents	73% (103/141 plus 3 incomplete responses that were omitted)
Tenure-Track	100% (20/20)
Librarians	100% (5/5)
Tenured Faculty	75% (60/80)
NTE / Contingent	50% (18/36)

2) Likert Answers Compared to Point Allocation Answers

ALL MEMBERS COMBINED (N=103)

Category	Likert Importance (1–5 Scale)	Point Allocation (0–100 Points)	Shift in Ranking
Job Security	4.39 (#1)	30.4 pts (#1)	Stable #1
Healthcare	4.30 (#2)	16.9 pts (#4)	Drop of 2 spots
Retirement	4.14 (#3)	17.6 pts (#3)	Stable #3
Salary	4.04 (#4)	26.6 pts (#2)	Jump of 2 spots
Class Sizes	3.37 (#5)	8.5 pts (#5)	Stable #5

HEALTHCARE PLAN USERS (N=73)

Category	Likert Importance (1–5 Scale)	Point Allocation (0–100 Points)	Shift in Ranking
Job Security	4.47 (#2)	29.1 pts (#1)	+1
Salary	4.08 (#4)	25.9 pts (#2)	+2
Healthcare	4.68 (#1)	21.0 pts (#3)	-2
Retirement	4.14 (#3)	16.6 pts (#4)	-1
Class Sizes	3.43 (#5)	7.4 pts (#5)	Stable #5

HEALTHCARE BUYOUT USERS (N=30)

Category	Likert Importance (1–5 Scale)	Point Allocation (0–100 Points)	Shift in Ranking
Job Security	4.21 (#1)	33.4 pts (#1)	Stable #1
Salary	3.98 (#3)	28.3 pts (#2)	+1
Retirement	4.13 (#2)	20.2 pts (#3)	-1
Class Sizes	3.23 (#5)	11.1 pts (#4)	+1
Healthcare	3.34 (#4)	7.0 pts (#5)	-1

3) Deeper Dive into Point Allocation Answers

ALL MEMBERS COMBINED (N=103)

Category	Mean	Median (50%)	Max
Job Security	30.4	25.0	100.0
Salary	26.6	25.0	80.0
Retirement	17.6	20.0	50.0
Healthcare	16.9	20.0	50.0
Class Sizes	8.5	5.0	50.0

MEMBERS SPLIT BY STATUS

Status	N	Job Security	Salary	Retirement	Healthcare	Class Sizes
All Members	103	30.4	26.6	17.6	16.9	8.5
Tenured	60	31.1	25.6	17.8	16.8	8.7
Tenure-Track	20	30.4	30.7	15.9	14.8	8.3
Librarians	5	28.6	20.2	20.4	27.2	3.6
Non-Tenure Track (NTE)	18	28.3	27.4	18.2	16.7	9.4

MEMBERS SPLIT BY HEALTHCARE

Group	N	Job Security	Salary	Retirement	Healthcare	Class Sizes
Healthcare Plan Users	73	29.1	25.9	16.6	21.0	7.4
Healthcare Buyout Users	30	33.4	28.3	20.2	7.0	11.1

SUMMARY OF POLARIZATION ACROSS ALL MEMBERS (STANDARD DEVIATION)

Priority Intensity: Distribution of Points by Category

Job Security is the most polarized category. Approximately **30%** of respondents allocated 40 or more points to this category, with 5.8% (6 people) assigning it over 80 points. Conversely, **24.2%** allocated fewer than 20 points, which includes 9 individuals who assigned it 0 points. Notably, while “pro-retrenchment” sentiments appeared across several open-ended responses, a per-respondent analysis reveals these comments **originate from 9 unique individuals** (interestingly, this group does not perfectly overlap with the 9 members who allocated 0 points to the category).

4) Additional Data Points

Mental Health & Trust Regarding Financial Exigency

- **77%** of respondents (79 members) report that administrative decision-making over the last 12 months has **"Impacted my mental health and bandwidth."**
- **55%** of respondents said that administrative decision-making over the last 12 months has **negatively** affected their ability to focus on **curriculum development and teaching**.
- **50%** of respondents say the administration has **not** adequately explained why it declared a state of financial exigency (**31%** saying "Definitely No").
- **33%** of respondents say they have **not** seen enough data to be convinced that long-term concessions are necessary for the survival of the institution (**18%** saying "Definitely No").

Suggestions from Comments for Non-Economic Gains

- Option for permanent, half-time position, possibly half-time remote position/option
- Second and third overload at lower price (reduce revolving door of adjuncts), or may temporarily offer the 2nd and plus overloads at adjunct rates
- Fewer meetings, fewer mandatory meetings (make faculty senate non-mandatory?)
- More M/W and M/F class time slots or M/R and T/F schedule and eliminate MWF classes
- Allow family to use facilities like gym and library
- Continued remote flexibility for meetings (no penalization for attending remote)
- Establishing defined workload caps, recognition of advising and mentoring responsibilities
- Recognition and respect for faculty expertise matter. Public acknowledgment of faculty contributions, inclusion in institutional marketing efforts, and visible support for academic programs help counteract negative press and rebuild enrollment confidence.
- Librarians want to keep flex time
- NTE faculty eligible for promotion (with clear process). Teaching award for TT/NTE (Crisafulli is for tenured faculty, other award is for adjuncts)
- Stop Admin from creating appointed committees
- Reduce necessity of yearly reappointment process
- Faculty Parking
- Revise animal policy on campus so people can bring their dogs
- Faculty Lounge, clean up restrooms, refill soap, clean buildings

5) Clarification for Membership Based on Survey Comments

Issue	Legal/Technical Citation	Key Takeaway for Members
Duty to All	NLRA Section 9(a); <i>Vaca v. Sipes</i>	Comment: "Stop protecting the jobs of a few and protect the benefits of the majority." The Supreme Court defined the Duty of Fair Representation as requiring a union "to serve the interests of all members without hostility or discrimination toward any, to exercise its discretion with complete good faith and honesty, and to avoid arbitrary conduct." We represent the "unit," not the individual. Choosing who to save is a violation of federal law.
Survey Design	Arrow (1951); Sen (1970)	Point allocation is a sophisticated tool used to avoid Arrow's Paradox (where group preferences cannot be logically ranked). While a 1–5 scale shows that members "value" many things, it cannot measure intensity. Point allocation forced members to act like negotiators with a limited budget, revealing that their absolute "spending" priority is Job Security and Salary above all other benefits. The point allocation methodology is used to overcome the "Social Choice" problem where individual preferences cannot be aggregated into a fair community preference through simple ranking.
Financial Risk	Delaware Study; NBER (2018)	Determining true program profitability is complex, as high enrollment in and of itself is not an indicator of financial sustainability. Analysis must account for the substantial "hidden" costs of specialized facilities, specialized faculty and required directorships/coordinator roles, marketing costs, partnership agreements, and other targeted infrastructure. High enrollment in and of itself is not an indicator of profitability. In a healthy university ecosystem, high-margin general education courses serve as the primary "revenue engines." Through "cross-subsidization," the surplus profit generated by these low-cost courses and minors/certificates provides the necessary funding for expensive, specialized programs. Smaller institutions often find expensive, specialized programs unsustainable if they do not maintain a robust general education core to provide this vital subsidy.

COMPLETE POINT ALLOCATION DATA
